

MEMS Academy

The Military Emergency Management Specialist (MEMS) Academy is highly recognized and respected nationally and internationally as the leader in military emergency management training. The Academy provides the most professional level of emergency management training to all members of State Defense Forces, DOD personnel, and specialized units interested in Emergency Management Training and certification.

There are three levels of the MEMS Academy, each with a corresponding uniform badge awarded upon completion of the [curriculum](#).

Basic MEMS

Senior MEMS

Master MEMS

SGAUS Mission

The mission of the State Guard Association of the United States (SGAUS) is to advocate for the advancement and support of regulated state military forces established by state governments under the authority of Title 32, Section 109, of the United States Code.

The Academy is highly recognized and respected nationally and internationally as the leader in military emergency management training. Thousands of army, air, naval militia and civilian personnel have been certified through the MEMS Academy and have gone on to use that knowledge to assist in state disasters like Katrina, Hurricane Sandy, fires in the Northwest, and floods in Southeastern states. The Academy has also trained members to respond to minor disturbances, where knowledgeable personnel have been required to assist the National Guard and first responders in Emergency Operations Centers and on the ground. The MEMS Academy will continue to provide the most professional level of emergency management training to all members of our State Defense Force
